PROJECTS

Ecourse for Students
Team Size: 5
Key Skills: HTML, CSS, Django, Python, Bootstrap, JavaScript
In a 24-hour hackathon, built a platform where instructors can upload courses with comprehensive descriptions, content details, pricing, and discounts. Students can easily select and add courses to their cart from this platform.

Patient Disease Prediction
Team Size: 2
Key Skills: ReactJS, MongoDB, Flask, Npm, TailwindCss, ML
Created a Website to predict disease based on past health data and current symptoms. Implemented machine learning algorithm to forecast conditions, offering personalized healthcare solutions with recommendations for medicines and nutrient-rich diets.

Surgi View
Key Skills: React, Npm, Firebase, TailwindCss
Developed "Surgi View" for KIMS Hospital, a web platform managing patient data and operation videos via Firebase integration.

ACHIEVEMENTS

Hacktober Fest
Our Team Secured 2nd position in hacktoberfest conducted by COSC

CERTIFICATES

Web Development 101- Getting started with JavaScript offered by Pupilfirst
Key Skills: HTML, CSS, JavaScript

CO-CURRICULAR

- Served as an Student Co-ordinator for Sudhee Technical Fest CBIT-2023
- Served as Publicity Volunteer for Sudhee Technical Fest CBIT-2022
